Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith, etc.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter (under a recent ruling, the 25 percent discount to dealers does not apply to Supreme Court reports which may, however, be sold by dealers at a price in advance of that charged by this Office; neither can the dealers' discount be allowed on the Federal Register).

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. doc. 383, 74–2.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for $1. Address order to Superintendent of Documents, Government Printing Office, Washington, D. C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e. g., the number A 1.23/a : So 96/4 listed in the Monthly Catalog would be A 1.23^{a} : So 96^{4} in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, $1.00 a year, including index; foreign subscription $1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

NOTES OF GENERAL INTEREST

CHANGES IN GOVERNMENT ORGANIZATIONS

Previous to June 30, 1932, there existed in the Commerce Department, two bureaus known as the Bureau of Navigation and the Steamboat Inspection Service. These had both been transferred on July 1, 1903, from the Treasury Department to the then newly organized Department of Commerce and Labor (later Department of Commerce). Under the provisions of the act making appropriations for the legislative branch of the Government, fiscal year 1933, approved June 30, 1932, the Steamboat Inspection Service and the Bureau of Navigation of the Department of Commerce were merged into one bureau to be known as the Bureau of Navigation and Steamboat Inspection. Now, a second change in title has taken place. Public no. 622, 74th Congress, approved May 27, 1936, provides that the Bureau of Navigation and Steamboat Inspection in the Department of Commerce shall hereafter be known as the Bureau of Marine Inspection and Navigation.

INDEX-CATALOGUE OF LIBRARY OF SURGEON GENERAL'S OFFICE

The Library of the Surgeon General's Office, known as the Army Medical Library, was started in the year 1836 when the Surgeon General established a collection of books in his office for the use of his staff. In 1840, a manuscript catalogue was prepared consisting of 23 unnumbered leaves, listing 130 titles. The first printed catalogue was published in 1864. It has 32 pages, measuring 5 × 7½ inches, and contains 602 titles. From this modest beginning the Library's collection has grown to more than a million items in the space of 70 years and forms what is now the largest medical library in the world.

In 1873, Surgeon John Shaw Billings, United States Army, began the Index-Catalogue, a work in which, under both authors and subjects, the medical literature of the world could be found. The first volume was printed in 1880 and the last volume, v. 16, in 1895. The second series appeared volume by volume between 1896 and 1916, 21 volumes in all. The third series was published in 10 volumes from 1918 to 1932. The smaller number of volumes resulted from the decision that pamphlets would no longer be indexed separately as they were already indexed as journal articles. There were also some omissions in this series which will be included in the fourth series of which the first volume has now been issued.

The Index-Catalogue is costly to publish, for not only does its preparation involve the full-time effort of a group of specially trained personnel, but its printing is the most difficult piece of typography attempted in the United States, as the Government Printing Office has frequently stated. The edition of 1,000 copies costs approximately $33,000 or about $33 per individual volume. But this is really a small price for an indispensable publication, without which medical science would receive a setback of the first magnitude. As Virchow in Germany and Welch in the United States, and others, have stated: "The Index-Catalogue of the Army Medical Library is America's greatest contribution to medicine." This first volume of the fourth series can be obtained from the Superintendent of Documents, in cloth binding for $2.50.

ADDITIONAL VOLUMES OF IMPORTANT SERIES

The Library of Congress began, in 1904, the printing of the Journals of the Continental Congress, 1774–1789, edited from the original records in the Library of Congress, the first time for these valuable records of consultation and legislative action to be printed as written and as they were kept by the office of the Secretary of Congress. Succeeding volumes have been issued through the years as funds have been available either from the printing funds of the Library or from those provided by private generosity. In the present Monthly Catalog, volumes 32 and 33 are listed, and contain the records from January 17 to December 19, 1787. These are listed at $2.25 a volume, in cloth binding, and are obtainable from the Superintendent of Documents.

The publication by the State Department of a series of volumes entitled Territorial Papers of United States was commented on at length in the Monthly Catalog for March 1935, p. 217. At that time, 3 volumes had been issued. Volume 4 is entered in this catalog and deals with the Territory South of the River Ohio, 1790–96. It is for sale by the Superintendent of Documents at $1.75, bound in cloth.

NEW PERIODICALS

The Farm Credit Quarterly, of which v. 1, no. 1, was issued with the date of March 31, 1936, is a new periodical, but it takes the place of an old one. The Farm Credit Administration has published a periodical since June 1933, entitled in the last issues: Statements of Condition of Federal Land Banks, Federal Farm Mortgage Corporation, Federal Intermediate Credit Banks, and Descriptive Summary of Production Credit Corporations and Associations, Banks for Cooperatives. The new quarterly is a continuation of the last-named publication and can be obtained on application to the Farm Credit Administration, Washington, D. C.

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps and the series will be issued periodically to show any change in improvement of the highways.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to mariners, formerly issued by the Coast and Geodetic Survey, has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The Coast and Geodetic Survey prepares and has for sale the airway maps issued by the Air Commerce Bureau, but since they are publications of the last-named bureau, they are entered in this catalog under that center head, for which see p. 678. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

NOTE.—This service, issued by the Marketing Research and Service Division, gives, to a limited number of organizations, data on subjects pertaining to business problems through the medium of abstracts and basic data sheets. These data are compiled from both governmental and non-governmental sources. The service gives material which can be used to prepare speeches, articles, etc., to study the problems confronting the community, and provides sources of information on business problems. It is free to any business organization or educational institution equipped to disseminate data to its members, students, or to the public, within certain limitations, prescribed by the Foreign and Domestic Commerce Bureau. Private organizations can obtain the service on a subscription basis, payable $10.00 annually, at the Foreign and Domestic Commerce Bureau.

NOTE.—Many of the divisions of the Foreign and Domestic Commerce Bureau issue monthly statistical statements in processed form showing the exports or imports (and in some cases reexports) of various commodities. For convenience the statements issued by a division have been grouped in numerical order under the name of the issuing division. Except for the statements issued under the group number 1700, which contain only summary monthly statistics, the statements show the exports or imports of commodities in complete detail by countries, and in certain instances by customs districts as well. Statistics covering trade in commodities by principal countries no longer appear in the "Monthly summary of foreign commerce of United States", and it is only through subscription to appropriate statistical statements that a record of such trade can be secured. Annual compilations are published in "Commerce and navigation of United States."

The annual domestic subscription price of each statement is based on the number of sheets of information included therein, the minimum price being $1.00. Where the subscriber resides outside the United States an additional charge – usually $1.00 per year – is levied. Single copies are to be charged for at the rate of one-tenth the annual subscription price in every case. Apply to the Foreign and Domestic Commerce Bureau, Washington, D. C., for these statements and for further information concerning them.

Group numbers are assigned for 1936 as follows:

1700—Summary foreign trade statistics. (5 statements.)
2100—Tobacco and tobacco products; issued by Tobacco Division. (1 statement.)
2400—Finance; issued by Finance Division. (1 statement.)

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios are sold by the Geological Survey at Washington, D. C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to $5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D. C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D. C. For topographic maps see p. 761.

Topographic maps

NOTE.—The Geological Survey is making a series of topographic maps that will eventually cover the whole United States, also Alaska and Hawaii. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some prominent town or natural feature in the area mapped. The scales most commonly used are 1 : 31,680, 1 : 62,500, and 1 : 125,000, corresponding, approximately, to ½ mile, 1 mile, and 2 miles to 1 inch. The area covered differs with the latitude, but the average area is 58, 230, or 920 square miles, respectively, for these three scales. Topographic maps are printed on uniform-sized paper, about 20 by 16½ inches, and the maps of the quadrangle areas represented thereon are about 17½ inches long and 12 to 15 inches wide, according to latitude. For some areas of particular importance special large-scale maps are published. A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet.

About 47 percent of the area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Twenty-five of the topographic maps covering areas in New Jersey are out of print, the Survey not reprinting the maps as the stocks become exhausted but referring applicants to the Department of Conservation and Development, at Trenton, which also publishes some of its maps on a larger scale. Maps of the regular size are sold by the Geological Survey at 10c. each. Except as otherwise indicated, a discount of 40 percent is allowed on any order which amounts to $5.00 at the retail price. The discount is allowed on an order for either maps or folios alone or for maps and folios together.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local center maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,480 counties in the United States have been prepared by the Post Office Department and blue-line prints, made from the latest available negatives, are sold for 50 cents per copy. Each county map shows, in addition to the roads traveled by rural carriers, all post offices within the county at the time the negative was made and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local center maps. Blueprint copies of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Disbursing Clerk, Post Office Department, Washington, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1936, page 211.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list, the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are *especially* interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D. C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment and have the endorsement of a Member of Congress."
Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz., Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

Beginning with v. 66, the Proceedings are issued only in pamphlet form. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

SOCIAL SECURITY BOARD

NOTE.—The Social Security Board was established under the provisions of H. R. 7260, 74th Congress (Public 271, approved Aug. 14, 1935), an act to provide for general welfare by establishing system of Federal old-age benefits, and by enabling the several States to make more adequate provision for aged persons, blind persons, dependent and crippled children, maternal and child welfare, public health, and administration of their unemployment compensation laws. The board was created to perform the duties imposed by this act and is also charged with the duty of studying and making recommendations as to the most effective methods of providing economic security through social insurance, and as to legislation and matters of administrative policy concerning old-age pensions, unemployment compensation, accident compensation, and related subjects.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within

well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 89 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

Army regulations.

NOTE.—The Army regulations are issued in pamphlet form for insertion in loose-leaf binders. The names of such of the more important administrative subjects as may seem appropriate, arranged in proper sequence, are numbered in a single series, and each name so numbered constitutes the title and number of a pamphlet containing certain administrative regulations pertaining thereto. Where more than one pamphlet is required for the administrative regulations pertaining to any such title, additional pamphlets will be issued in a separate sub-series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U. S. engineer offices: 710 Army Building, New York, N. Y.; 486 Broadway, Albany, N. Y.; 540 Federal Building, Buffalo, N. Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U. S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.
